

Hardin County Government

November-December 2015

Harry L. Berry
Judge/Executive

Our County Snow Removal Plan for this Winter

Our County Road Department clears the snow and ice from county-maintained roads. We currently have 889 roads equaling 589 miles of roadway. We divide the county into five areas for the purpose of snow removal. Within each area, we have priority roads and secondary roads. The priority roads are basic system roads essential for traffic movement throughout the county; while secondary roads are a part of a subdivision or lead into a subdivision. (The column to your right and continuing on the next page, lists all county priority roads)

The Commonwealth of Kentucky's Department of Transportation covers all Interstate and state roads such as: Highway 31W, Highway 84, Highway 86, Highway 62, and Highway 313. This state agency also covers such roads as 1357 (St. John Road) and 1600 (Rineyville Road).

We commonly use rock salt as our de-icing agent when the temperature is above 25 degrees. The salt can melt several inches of snow and prevent or reduce the bonding of compacted snow on the pavement surface. We will apply a salt brine

Priority Roads

Area 1:

South Boundary
Centinel
Pinewood
Pear Orchard Road
Bewley Hollow Road
Sycamore
West Bryan Road
Tunnel Hill Road
Tunnel Hill Church Road
Wooden Lane
Bluegrass Road
Wooldridge Ferry Road
Upper and Lower Colesburg Roads
Stovall Road
Mt View Road
Colesburg Road
St. Claire Street
Stewart Road

Area 2:

Springfield Road
Hillcreek Drive
David Miller Road
Audubon Trace Road
Hunt Road
Ford Highway
Mack Thomas Road
Union Church Road
Valley Creek Spur
Middle Creek Road
Red Mill Road
Williams Cem Road
Locust Grove Road
Sportsman Lake Road
Puckett Road
Howell Road
Jeffries Road
Mackey Road

Our County Snow Removal

What most citizens want to know...

to our roads before a snow storm to keep ice and snow from bonding to the pavement; however the roads must be dry for the brine to be effective.

Our County's main objective is to provide for your travel safety in the most reasonable, efficient, and effective manner. Below are simple suggestions to help us help you.

- **Limit your travel** during winter storms to only necessary trips. Avoid driving on the roads until we clear them.
- **Park your vehicles in your driveways** and off the road. If you live in a neighborhood where you must park on the street, please coordinate with your neighbors to park on one side of the street before a snow storm. Parked cars hinder the speed and efficiency of our snow removal equipment.
- **Understand our snow plows are designed to remove snow from the roadway** to the edge of the road. Our snow plows may push some snow in front of your driveway, but we cannot avoid it.
- **Understand we cannot set a specific completion time to clear roads.** We work around the clock for your travel safety and encounter many issues, such as: the amount of snow, the type of snow and/or ice, and the duration of the storm.
